Smart Payment

Reliant of Cash & Cheques

Merchants are having difficulties adopting cash-less payment

- Confusion of diversify of multiple QR products
- Terminals machines space constrains
- Payment reconciliation from multiple systems
- Change in existing business processes
- Force non-cash payment?
- Non-IT Savvy merchants and consumers

How do we....

- □ Unify QR Payment landscape locally and in overseas?
- □ Streamlining the current ePayment landscape, from retails to businesses (B2C, B2B)?
- □ Assist Non-IT Savvy merchants and consumers adopt digital payments?

Thank You
